AFFILIATE NETWORK

Affiliate Program: More Resources & Insights

I am pleased to be part of the Patina Affiliate program for independent executives.

As an Affiliate, I can provide you access to even more solutions, information and resources because of the reach and depth of Patina and my fellow Affiliates. If expertise or support is needed for an engagement in addition to my offerings or availability, I can partner with Patina for fast and effective resources.

For example, as my valued client, if you need access to a new or interim Vice President outside of my skill area, Patina can help. For any function, industry or area of expertise – Patina Professionals are available to you and me “on demand.” Patina has an impressive range of talent available to help or hire.

Being an Affiliate provides me a local executive peer group to share knowledge and best practices with – and I can ask the Affiliate network for help or insights if needed. It also allows me to bring you content and ideas from an impressive, global pool of talented executives.

Let me know if you have questions on Patina Solutions and how they can support our goals and initiatives.
